<b>Resolution:</b>			
<b>Description</b>			
Could "Unable to delete version" error message be added to translations. This text comes when trying to delete version that contains issues.			

#### Associated revisions

##### Revision 1829 - 2008-09-14 14:59 - Azamat Hackimov

fixed #1216, thank Antti Perkiömäki for reporting

##### Revision 1858 - 2008-09-14 17:38 - Nicolas Chucho

r18565@gaspard (orig r1829): winterheart | 2008-09-14 14:59:12 +0200

fixed #1216, thank Antti Perkiömäki for reporting

#### History

##### #1 - 2008-05-12 14:51 - Thomas Lecavelier

Should be a defect, since it's not i18n.

```
/var/redmine/app% grep -nr 'Unable to delete version' *  
controllers/.svn/text-base/versions_controller.rb.svn-base:37: flash[:error] = "Unable to delete version"  
controllers/versions_controller.rb:37: flash[:error] = "Unable to delete version"
```

Only one occurrence in the app: version\_controller.rb:37.

##### #2 - 2008-09-14 14:25 - Azamat Hackimov

- File *versions\_controller.rb.diff* added

- Assignee set to *Jean-Philippe Lang*

Jean-Philippe, can I apply this patch to versions\_controller.rb?

##### #3 - 2008-09-14 14:40 - Jean-Philippe Lang

- Assignee changed from *Jean-Philippe Lang* to *Azamat Hackimov*

Yes, you can. Here is how to add the new string to every lang files: add it to en.yml after the existing notice strings (around line 80) and run rake gloc:update.

**#4 - 2008-09-14 14:57 - Azamat Hackimov**

- Status changed from New to Closed
- Target version set to 0.8

Solved in r1829, thank to Antti Perkiömäki for reporting.
