

Redmine - Defect #12341

MySQL Error after upgrading to 2.1.2

2012-11-09 21:08 - Mark P

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	2.1.2
Resolution:	Invalid		
Description			
<p>This is also listed in the forums here: http://www.redmine.org/boards/2/topics/34275</p> <p>I've got a dev server we've been trying out 2.x with. We take our current 1.0.1 database, run db:migrate on it and with 2.0 it's always gone fine. Now that we went from 2.0.4 to 2.1.2 there's a problem.</p> <p>When I try to create a new issue, I get a 500 error. Looking at the dev log I see this:</p> <pre>mysql2::Error: Column 'position' cannot be null: INSERT INTO `issues` (`assigned_to_id`, `author_id`, `category_id`, `created_on`, `description`, `done_ratio`, `due_date`, `estimated_hours`, `fixed_version_id`, `is_private`, `lft`, `lock_version`, `parent_id`, `position`, `priority_id`, `project_id`, `remaining_hours`, `rgt`, `root_id`, `start_date`, `status_id`, `story_points`, `subject`, `tracker_id`, `updated_on`) VALUES (NULL, 36, NULL, '2012-11-09 14:46:59', 'asfasfasadf', 0, NULL, NULL, NULL, 0, 1, 0, NULL, NULL, 4, 1, NULL, 2, NULL, '2012-11-09', 1, NULL, 'test', 1, '2012-11-09 14:46:59')</pre> <p>I see in the database.rb that in the issues table there is a not nullable field called position. That wasn't in the 1.x database we have and there are no plugins installed so I'm pretty sure this is a stock field.</p> <p>Current about: Environment: Redmine version 2.1.2.stable Ruby version 1.9.3 (x86_64-linux) Rails version 3.2.8 Environment development Database adapter MySQL2 Redmine plugins: no plugin installed</p> <p>What are we missing that position ends up being null on the INSERT?</p> <pre>[root@redmine]# RAILS_ENV=development rake about About your application's environment Ruby version 1.9.3 (x86_64-linux) RubyGems version 1.8.24 Rack version 1.4 Rails version 3.2.8 Active Record version 3.2.8 Action Pack version 3.2.8 Active Resource version 3.2.8 Action Mailer version 3.2.8 Active Support version 3.2.8 Middleware ActionDispatch::Static, Rack::Lock, #<ActiveSupport::Cache::Strategy::LocalCache::Middleware:0x00000000cfb2a0>, Rack::Runtime, Rack::MethodOverride, ActionDispatch::RequestId, Rails::Rack::Logger, ActionDispatch::ShowExceptions, ActionDispatch::DebugExceptions, ActionDispatch::RemoteIp, ActionDispatch::Reloader, ActionDispatch::Callbacks, ActiveRecord::ConnectionAdapters::ConnectionManagement, ActiveRecord::QueryCache, ActionDispatch::Cookies, ActionDispatch::Session::CookieStore, ActionDispatch::Flash, ActionDispatch::ParamsParser, ActionDispatch::Head, Rack::ConditionalGet, Rack::ETag, ActionDispatch::BestStandardsSupport, OpenIdAuthentication Application root /var/www/redmine/redmine-2.1.2 Environment development Database adapter mysql2</pre>			

History

#1 - 2012-11-10 10:57 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Invalid

There's no position column in the issues table in Redmine core. This column must have been created by a plugin that you previously installed.
