

Redmine - Feature #12508

Add diff to wiki change notification

2012-12-05 09:42 - Wolfgang Schnerring

Status: New	Start date:
Priority: Normal	Due date:

Category: Email notifications	Estimated time: 0.00 hour
Target version:	
Resolution:	
Description Is it possible to get the diff in the email if something is changed? Right now Redmine only reports that page was changed, and a link to the diff. Is it possible to have that changes inlined to the email body? (See also http://www.redmine.org/boards/2/topics/34529 , http://www.redmine.org/boards/2/topics/21012)

You can do it with the patch in [#11530](#) and [Wiki Change Notifier](#) plugin.

You can install them by the following command lines:

```
% cd /path/to/redmine
% curl http://www.redmine.org/attachments/download/8244/support-hooks-in-mailer-for-r10463.patch | patch -p0
% git clone https://github.com/kou/redmine-plugin-wiki-change-notifier plugins/wiki_change_notifier
(Restart your Redmine.)
```
