Target version:	2.1.5		
Resolution:	Fixed	**Affected version:**	2.1.4

Description

If you group issues by a custom field the index shows correctly in HTML. In PDF issues belonging to the same group value are not grouped (excpet those who have a nil value in the group field).

This error occurs in 2.1.2 and newer versions. I have a fix for that, you find my patch in the attachments.

Best regards,

Christian
