<b>Category:</b>	Issues	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	2.1.4
<b>Resolution:</b>			
<b>Description</b>			
Hi there,			
I encountered some misbehaviour, regarding ticket status and sourcecode management.			
Ways to reproduce:			
1. Create a new Ticket (ticket status => new)			
2. Create a commit which change the ticket status (default configuration: fixes #...) (ticket status => resolved)			
3. Edit your new ticket (add a note) (ticket form shows ticket status => new)			
4. If you save this this new note, the ticket has the status new again!			
Hope this helps to find the corresponding bug.			
Best regards,			
Daniel
