<b>Status:</b>	Closed	<b>Start date:</b>

<b>Target version:</b>		<b>Affected version:</b>	2.1.4
<b>Resolution:</b>	Fixed		
<b>Description</b> During DB migration an error shows up: The index 'changesets_repos_rev' is dependent on column 'revision'... So I have dropped the index on table dbo.changesets, run the migration again and created index after migration is complete. Problem may be in column type changes during migration. It affects 2.2.0 but this verison is not in Affected version drop down.
