Target version:			
Resolution:	Duplicate		
Description <div>This gives the ability to extend the custom queries, to display multi-values in the issues tab columns. Like watchers for example, issues relations etc.</div> <div>The patch proposed is for Rails V1.2.1</div> <div>This patch is un-useful unless to add something like that in the @@available_columns array of app/models/query.rb : QueryColumn.new(:watchers)</div>			
Related issues: Is duplicate of Redmine - Feature #29894: View watchers on the issue list Closed
