<b>Resolution:</b> Duplicate	

**Description**

Steps:

1. Make two tickets A and B those have "NEW" staus
2. Go to ticket query and make a condition, which has Status is equal with "New"
3. Click on apply button
4. Click ticket A and go to edit screen
5. Change the status of ticket A to "In progress" and press submit button
6. See the right top of screen

Results:

The Prev and Next button were not displayed.  
To go back to the query, once again user have to make a qury and apply it.

Expected Behavior:

Need to have go back to query button instead of Next Prev button  
Or  
Better handle wasys for the user frindliness
