#### Associated revisions

##### Revision 11329 - 2013-02-07 19:20 - Jean-Philippe Lang

Add unique index on custom\_fields\_trackers (#13059).

#### History

##### #1 - 2013-02-07 19:32 - Jean-Philippe Lang

- Subject changed from Multiple select lists custom fields are listed two times in workflow/Fields permission to Custom fields are listed two times in workflow/Fields permission
- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang
- Target version set to 2.3.0

- Resolution set to Fixed

It's not because they are multiple select custom fields. You must have duplicate rows in the custom\_fields\_trackers table. This is fixed in r11329, which removes duplicate rows and adds a unique index on that table to prevent that.
