Redmine - Feature #1311

Subversion: Show revision histories for branches

2008-05-27 07:51 - Colan Schwartz

Description

It would be great if revision histories could be viewed for specific branches in the repository tree as discussed over at http://www.redmine.org/boards/1/topics/show/861. I just migrated from Trac, and I **really** miss this feature. In Trac, you can specify a URL like http://trac.example.com/log/sandboxes/colan to show you revisions specific to the /sandboxes/colan part of the tree.

History

#1 - 2008-05-27 08:29 - Anonymous

I'd like to see this too

#2 - 2008-06-13 14:29 - Jani Tiainen

+1

It's really painful to see non related commits, for example if you take look at 0.7-stable branch here, there is no easy way to find what changesets belongs to this particular branch and which are just "noise" from other branches.

#3 - 2008-10-09 01:54 - Mischa The Evil

+10...

Will try to create a patch for it. See if I'm skilled enough but looking at the code it shouldn't be that difficult I think... ;-)

- Category set to SCM

- Assignee set to Mischa The Evil

#5 - 2008-12-08 16:59 - Mischa The Evil

- Status changed from New to 7

#6 - 2009-09-02 18:54 - Mischa The Evil

To me it seems Jean-Philippe Lang has implemented this feature in r2849:

- add latest changesets for the current directory when browsing the repository and a link to the full log

Will test it and update this issue according to the results...

See issue [#3943](#); [r2849](#) provides the basics for this issue's feature only.

#8 - 2010-10-17 04:29 - Mischa The Evil

- Status changed from 7 to Resolved

- Assignee deleted (Mischa The Evil)

I'm not working on this issue anymore.

#9 - 2010-10-17 04:29 - Mischa The Evil

- Status changed from Resolved to New

Corrected issue-status.

#10 - 2011-03-23 05:34 - Toshi MARUYAMA

- Subject changed from Show revision histories for branches to Subversion: Show revision histories for branches
