

Redmine - Defect #13127

h1 multiple lined titles breaks into main menu

2013-02-11 15:43 - Martin Nørgaard Gregersen

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:	2.2.4	Affected version:	2.2.1
Resolution:	Fixed		
Description			
<p>The fixed height on the #header makes header break down into the header, when Titles are long. In our company they make a lot of long headers, which makes the header break into the main menu way too often and disturbs the UX.</p> <p>To fix this and keep the header flexible for single- and multiple lines, simply add (or change) the following CSS:</p> <pre>#header { height:auto; } #header h1 { padding-bottom: 30px; }</pre>

Associated revisions

Revision 11351 - 2013-02-11 19:14 - Jean-Philippe Lang

Fixed that long project names in the header may overlap the main menu (#13127).

Revision 11595 - 2013-03-11 19:28 - Jean-Philippe Lang

Merged r11351 from trunk (#13127).

History

#1 - 2013-02-11 19:15 - Jean-Philippe Lang

- Status changed from New to Resolved
- Assignee set to Jean-Philippe Lang
- Target version set to 2.2.3
- Resolution set to Fixed

I've committed a different fix in r11351 to avoid the bottom-padding on the h1. Can you confirm it's OK?

#2 - 2013-02-12 07:50 - Ivan Cenov

I tested with several projects (parent-child-child..) with long names. Some part was dropped because not fitted in the header.

P.S. May header should have variable height?

#3 - 2013-02-12 19:06 - Jean-Philippe Lang

- Target version changed from 2.2.3 to 2.2.4

Did you apply the fix before your test ? Because the patch makes the height variable.

#4 - 2013-02-13 19:54 - Ivan Cenov

Hmm, It seems I have forgotten to make svn update before test. The height is variable.

#5 - 2013-02-13 19:54 - Ivan Cenov

#6 - 2013-03-11 19:29 - Jean-Philippe Lang

- Status changed from Resolved to Closed

OK, thanks for the feedback.
