

Redmine - Defect #13135

mail_handler.rb - email message body has trailing space - alters wiki view

2013-02-12 02:32 - Timothy Fawcett

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:		Affected version:	2.2.2
Resolution:			

Description

Redmine 2.2.2, Ruby 1.8.7, Rails 3.2.11 on EL6

app/models/mail_handler.rb, line 475:

```
body.strip
```

This leaves a trailing space on all lines of the body of the email:

```
Testing, Testing
```

```
2 new lines... Still testing
```

```
--
```

```
*Me*
```

```
Office: (555) 555-1212
```

```
Email: me@example.net
```

Which looks like:

```
Testing, Testing
```

```
2 new lines... Still testing
```

```
--
```

```
Me
```

```
Office: (555) 555-1212
```

```
Email: me@example.net
```

Possible fix - remove trailing space by:

```
#body.strip
```

```
newbody = ""
```

```
body.each {|l| newbody << l.gsub(/^[ ]/, '')}
```

```
body = newbody
```

History

#1 - 2013-02-14 17:48 - Timothy Fawcett

Possible fix - remove LEADING space by:

```
#body.strip
```

```
newbody = ""
```

```
body.each {|l| newbody << l.gsub(/^[ ]/, '')}
```

```
body = newbody
```
