Description
I've got some warnings after upgrade my Apache passenger's module to a newer version. It seems like we now have to use HTTPS instead of HTTP in the Gemfile for "source".
I've attached a patch.

- Status changed from Closed to Reopened

r11486 roll backed http.
Why?

#6 - 2013-02-26 07:57 - Jean-Philippe Lang

Sorry, I had to remove it when trying ruby 2.0 (cert validation error) but I didn't mean to commit it.
This error needs further investigation.
