

Redmine - Defect #13200

not able to see git repo

2013-02-18 10:02 - Amol Pujari

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	2.2.0
Resolution:	Invalid		
Description			
Am using redmine 2.2, taken it from latest svn last week and tried configuring my git repo, all done as per docs, but I see the msg on app as			
404			
The entry or revision was not found in the repository.			
Back			
and by running <code>./script/rails runner "Repository.fetch_changesets" -e production</code>			
again I see			
<pre>[dhakchik@toma redmine-2.2]\$./script/rails runner "Repository.fetch_changesets" -e production /home/dhakchik/.rvm/gems/ruby-1.9.3-p385@redmine/gems/activesupport-3.2.12/lib/active_support/dependencies.rb:251:in `block in require': iconv will be deprecated in the future, use String#encode instead. fatal: Not a git repository: '/home/dhakchik/git/project_name/'</pre>			
If I go to <code>/home/dhakchik/git/project_name/</code>			
I could easily do git status and all git stuff			

History

#1 - 2013-02-18 10:48 - Amol Pujari

- Status changed from New to Resolved

I missed a couple of imp steps, my mistake, this one is now invalid

#2 - 2013-02-18 10:53 - Etienne Massip

- Status changed from Resolved to Closed

- Priority changed from Urgent to Normal

- Resolution set to Invalid
