Description

The german translation for precedes and follows ticketrelations is inconsistent.

There are two mixed approaches to translate these terms.

Current:

label_precedes: Vorgänger von

label_follows: Folgt

Approach which meanes "followed by" or "precedes on..."

label_precedes: Vorgänger von

label_follows: Nachfolger von

Approach which meeans "follows" or "precedes"

label_precedes: Geht vor

label_follows: Folgt nach

Well, even if the label fields would expext approach 2, the german translation in approach 1 would be much more convenient.
