Description			
<p>Hi there,</p> <p>all ticket relations seem to work on my system. The only special case is the new "follow" relation which doesn't reload after defining.</p> <p>Whether on IE9 or Firefox 19.</p> <p>After manually reloading, the relation is set. But it's a bit strange that only this relation doesn't reload the page.</p> <p>I'm using current trunk r11446 with ruby 1.8.7.</p>
