Redmine - Feature #13556

Add feature to search engine to distinguish between closed and open tickets

2013-03-22 08:48 - Anonymous

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Search engine	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Duplicate		

Description

Adding an option to the search form that makes it possible to distinguish between open and closed tickets would help us to spend less time searching for tickets whose status we know.

Possible implementation:

[ ] Tickets   [ ] News   [ ] Changesets   [ ]Wiki (...)

could look like this

[ ] Tickets ([ ] exclude status closed [ ] exclude status open)   [ ] News   [ ] Changesets   [ ] Wiki (...)
