Redmine - Defect #13597

Redmine.pm and dots in username

2013-03-26 14:27 - Konrad Mattheis

Status:	New	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	SCM extra	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Affected version:**	2.2.4

Description

The Redmine.pm does not work with "." in the username, if you try to open
a repos with username included in the url like: https://firstname.lastname@redmine.org/git/project.git

This problems comes from the parsing of the "." in the projectname.

Unfortunately I have not many exper. with perl regex. Can anybody help me to give a hint how
to change the following code that it only searches for a "." behind a "@"

```
sub get_project_identifier {

...
$location =~ s/\.git$// if (defined $cfg->{RedmineGitSmartHttp} and $cfg->{RedmineGitSmartHttp});
my ($identifier) = $r->uri =~ m{$location/*([^/.]+)};

...
```
