

Redmine - Feature #13619

Automatically pass issues to the next defined team member after issue status updated

2013-03-28 02:35 - yu xiaohang

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues workflow	Estimated time:	0.00 hour
Target version:			
Resolution:			
Description			
just like this: when i change issue status from new to resolved or other customized status i will never need to assign this issue to the member who working on it manually redmine can do it automatically according to the customization in project->settings or in administration workflow
