    ctivesupport (3.2.13) lib/active_support/dependencies.rb:251:in `require'
    plugins/google_apps/app/controllers/google_apps_controller.rb:1

Looks like its due to a plugin...
Remove it and try again.

And please use the forum for such requests, unless you're 99% sure that it's really a **defect** in redmine itself.
