

Redmine - Feature #13736

Parent priority does not update when subtasks are closed

2013-04-10 17:18 - Wouter Lievens

Status: Closed	Start date:
Priority: Normal	Due date:

Category: Issues	Estimated time: 0.00 hour
Target version:	
Resolution: Duplicate	
Description The priority of a parent task is automatically set to the maximum priority of all its subtasks. I think it should be set to the maximum priority of all its open subtasks. Does that make sense? Environment: Redmine version 2.2.3.stable Ruby version 1.9.3 (x86_64-linux) Rails version 3.2.12 Environment production Database adapter Mysql2

I think it depends on the individual workflow and how priority is used.

For example, priority of sub-task might imply priority of the that task among all the tasks under that parent issue, but the overall parent task may still be 'normal'

#2 - 2013-04-18 22:40 - Emmanuel Serau

It's a problem that cannot be solved with workflow management.

The Parent issue's priority should (must) set to the highest priority of the sub-tasks.

#3 - 2013-05-03 23:05 - Emmanuel Serau

Definitely an issue there.
Please raise the priority and include it into next release.
Thanks
