

Redmine - Feature #13834

Can we change the jquery file with other versions

Description Hi, I am looking for a datetime field and observed that JQuery datetime UI control is being used. Would it be possible to replace that UI control with another version which ships with Date and time. I found one JQuery Datetime Picker control on web.

- Tracker changed from Patch to Feature

This is more likely a feature request.

#2 - 2013-04-23 09:27 - Dileep Kumar

Any one can advise for this???

Do you want just another UI control or you want a date + time picker? If it's the functionality you are requesting this issue is a duplicate: [#5458](#)

#4 - 2013-04-26 07:04 - Dileep Kumar

I am looking date+time picker ccontrol.

#5 - 2013-04-26 07:06 - Dileep Kumar

With reference to issue [#5458](#), it is a patch to show time field which is not working. As i believe it is for the older versions of redmine and it will not be applicable for newer versions. Hence I thought of using different version of JQuery UI DATETIME PICKER control, would it be possible to replace with another version of control?

Hello All,

I am eagerly waiting for your advises.

Thanks in Advance
