Description

hi!

I'm trying to add attachments to a wiki page created via the Redmine API.

Is the XML below supported?

```
<?xml version="1.0"?>
<wiki_page>
  <text>Some text
</text>
  <comments></comments>
<uploads type=array>
<upload>
<token>538.587d2a7796df47552dd720c83e952a2b</token>
<filename>application.1.xml</filename>
<content_type>text/plain</content_type>
</upload>
<upload>
<token>539.0f92777604a4ea3fa0cde1208042f641</token>
<filename>application.2.xml</filename>
<content_type>text/plain</content_type>
</upload>
</uploads>
</wiki_page>
```
