<b>Category:</b> PDF export	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> 2.6.0	<b>Affected version:</b> 2.2.0
<b>Resolution:</b> Fixed	
<b>Description</b>	
<p>The text of custom text fields is not wrapped in PDF exports of a single issue. They are printed in a single line. Therefore the PDF export, which would be a very helpful feature, is useless for me.</p> <p>I'm using the Bitnami Redmine 2.2.0. Thanks for the link.

Based on the information given there I tried to fix the issue with the attached patch based on version version:2.2.0.

I didn't know how to calculate the text box height in advance that's why I had to draw them twice in order to draw odd lines with a different background color.
