Redmine - Defect #13860

Text of custom fields is not wrapped in PDF exports of issues

2013-04-24 10:26 - Jürgen Diez

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	PDF export		**Estimated time:**	0.00 hour
Target version:	2.6.0			
Resolution:	Fixed		**Affected version:**	2.2.0

Description

The text of custom text fields is not wrapped in PDF exports of a single issue. They are printed in a single line.
Therefore the PDF export, which whould be a very helpful feature, is useless for me.

I'm using the Bitnami Redmine 2.2.0.
My language is set to German.

```
About your application's environment
Ruby version              1.9.3 (i386-mingw32)
RubyGems version          1.8.23
Rack version              1.4
Rails version             3.2.11
Active Record version     3.2.11
Action Pack version       3.2.11
Active Resource version   3.2.11
Action Mailer version     3.2.11
Active Support version    3.2.11
Middleware                ActionDispatch::Static, Rack::Lock, #&lt;ActiveSupport::Cache::Strategy:
:LocalCache::Middleware:0x1a53320&gt;, Rack::Runtime, Rack::MethodOverride, ActionDispatch::Reques
tId, Rails::Rack::Logger, ActionDispatch::ShowExceptions, ActionDispatch::DebugExceptions, ActionD
ispatch::RemoteIp, ActionDispatch::Reloader, ActionDispatch::Callbacks, ActiveRecord::ConnectionAd
apters::ConnectionManagement, ActiveRecord::QueryCache, ActionDispatch::Cookies, ActionDispatch::S
ession::CookieStore, ActionDispatch::Flash, ActionDispatch::ParamsParser, ActionDispatch::Head, Ra
ck::ConditionalGet, Rack::ETag, ActionDispatch::BestStandardsSupport, OpenIdAuthentication
Application root          C:/BitNami/redmine-2.2.2-0/apps/redmine/htdocs
Environment               development
Database adapter          mysql2
Database schema version   20121026003537
```

Thanks for your great work.
Let me know if you need more information.

- File pdf.rb.patch added

Thanks for the link.
Based on the information given there I tried to fix the issue with the attached patch based on version 2.2.0.

I didn't know how to calculate the text box height in advance that's why I had to draw them twice in order to draw odd lines with a different background

color.
