

Redmine - Feature #13891

Field conditions depending on ticket status

2013-04-26 14:30 - Jörn Allmers

Status: Needs feedback	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Issues	Estimated time: 0.00 hour
Target version:	
Resolution:	
Description Conditions for ticket fields should be depending on the status of the ticket. E.g. Date may be null if ticket is new but not is ticket is resolved.

What's about field permission (workflow settings)?

#2 - 2013-05-04 23:43 - Filou Centrinov

Status: Needs feedback

#3 - 2013-05-05 03:16 - Mischa The Evil

- Status changed from New to Needs feedback

#4 - 2013-05-06 14:39 - Jörn Allmers

This feature solves the problem only partly.

It would be cool if I could say something like "% done" must not be null **and** 100% if the state is closed.

#5 - 2016-02-16 20:28 - @ go2null

Jörn Allmers: E.g. Date may be null if ticket is new but not is ticket is resolved.

Filou Centrinov: What's about field permission (workflow settings)?

The issue is that you cannot say that the Date must be entered **before** the issue can be closed, *and* must be read-only when it **is** closed.

- If I set the field to "Required" for status Closed, then it can be changed when it is in status Closed.
- If I set it to "Read-Only", then it can be set to *blank* when closing.

Workaround is that for all Statuses that can lead to a closed Status, you will need to set the field to "Required".
