Category:	Custom fields		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	2.2.4

Description

I have a custom field of type "user" with multiple values and I create a new issue with some selected users.
During a change of the issue I delete some selected users and this action were not journalized. The only change that i see is when I add some additional users.

See also the attached screenshot.

History

#1 - 2013-05-31 03:04 - Ben Chan

+1 that I've got same issue on redmine-2.1

#2 - 2016-10-14 09:01 - Martin G

- Status changed from New to Resolved

It seems that this problem was resolved with version 2.5.0
