<b>Target version:</b>			
<b>Resolution:</b>	No feedback		
<b>Description</b>			
I see this was added to issues in 1.4 as per:  <a href="#">#8691</a>  is there any reason this can't be implemented for the wiki pages as well?			

History

#1 - 2013-05-13 22:06 - Jean-Philippe Lang

- Subject changed from Conflict Resolution implementation for the wiki to Conflict resolution implementation for the wiki
- Status changed from New to Needs feedback

The concurrent editing of different sections of a wiki pages is already handled. But reverting all the previous changes when a conflict occurs does not seem a usefull option. Could you explain in more details what you expect from this feature?

#2 - 2015-08-23 17:32 - Jan Niggemann (redmine.org team member)

- Status changed from Needs feedback to Closed
- Resolution set to No feedback
