

## Redmine - Feature #14006

### A shortcut to view all issues of all projects

2013-05-08 09:33 - Ivan Yiu

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	30%
<b>Category:</b>	Issues	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Resolution:</b>	Fixed		
<b>Description</b>			
<p>From the topmost menu "Projects" -&gt; "View all issues", we can retrieve all issue of all project. But after we go to a project by selecting from the "Jump to a project" pull down list, there is no way for the user to view all issue from all project.</p> <p>Again, user need to click the topmost "Project" link first then select "View all issues".</p> <p>Please kindly help to provide a shortcut, e.g. An "All Projects" options in the "Jump to a project" pull down list, or provide options in custom query to include all projects or a dedicate project.</p>

### History

#### #1 - 2013-05-08 10:03 - Daniel Felix

- File `add_shortcut_to_issues.diff` added

- Category set to Issues

Take a look at [#14007](#).

#### #2 - 2013-05-08 14:49 - Daniel Felix

Maybe you can give some feedback if this would solve your request.

#### #3 - 2013-05-08 16:45 - Ivan Yiu

i am new to REDMINE. Could you please provide more details how to use the diff file.

#### #4 - 2013-05-08 23:36 - Terence Mill

+1

#### #5 - 2013-05-09 01:00 - Jean-Baptiste Barth

That's why I personally did on my instance at work, but I think it can be confusing for people with one or few projects. I already saw people who are not familiar with redmine, they're completely lost about those scoping issues. Jean-Philippe proposed an other approach in [#5920](#) (second screenshot). Maybe a mitigation should be to display this link only if the user as more than 2 projects ?

#### #6 - 2013-05-09 03:52 - Ivan Yiu

Hi Jean,

Does the [#5920](#) patch applicable to the new Redmine 2.3.0 ?

Thanks.

#### #7 - 2013-05-09 03:59 - Ivan Yiu

Dear Daniel,

I apply the patch file on Redmine 2.3.0 but failed.

```
$>patch -p0 < add_shortcut_to_issues.diff
can't find file to patch at input line 11
Perhaps you used the wrong -p or --strip option?
The text leading up to this was:
-----
| app/views/issues/_sidebar.html.erb | 9 ++++++---
| config/locales/de.yml              | 1 +
| config/locales/en-GB.yml           | 1 +
| config/locales/en.yml              | 1 +
| 4 files changed, 9 insertions(+), 3 deletions(-)
|
|diff --git a/app/views/issues/_sidebar.html.erb b/app/views/issues/_sidebar.html.erb
|index dbf1918..a52ea3f 100644
|--- a/app/views/issues/_sidebar.html.erb
|+++ b/app/views/issues/_sidebar.html.erb
-----
```

#### #8 - 2013-05-09 04:13 - Jean-Baptiste Barth

I don't advice you apply patches blindly, try to discuss the feature and then we'll see. Btw, the patch should be applied with -p1, not -p0. And maybe there are extra lines at the top (the first 6 ones) that should be removed, not sure.

#### #9 - 2013-05-09 04:18 - Ivan Yiu

Thanks Jean, I just follow the wiki page [<http://www.redmine.org/projects/redmine/wiki/Patch>] to apply the patch.

I've update the wiki page already, hope this can help other user too.

#### #10 - 2013-05-09 04:22 - Ivan Yiu

Still fail .... I really don't know what's happening.

```
patch -p1 < add_shortcut_to_issues.diff
patching file app/views/issues/_sidebar.html.erb
Hunk #1 FAILED at 3.
1 out of 1 hunk FAILED -- saving rejects to file app/views/issues/_sidebar.html.erb.rej
patching file config/locales/de.yml
Hunk #1 succeeded at 644 (offset -1 lines).
patching file config/locales/en-GB.yml
patching file config/locales/en.yml
Hunk #1 succeeded at 549 (offset -1 lines).
root@scmpms:/opt/redmine-2.3.0-0/apps/redmine/htdocs>view app/views/issues/_sidebar.html.erb.rej
```

#### #11 - 2013-05-09 10:52 - Daniel Felix

Hi,

try it manually.

Just add these lines

```
<% if User.current.allowed_to?(:view_issues, nil, :global => true) %>
<li><%= link_to(:label_overall_issues, issues_path) %></li>
<% end %>
```

beneath this line

```
<li><%= link_to(:field_summary), project_issues_report_path(@project) %></li>
```

in [source:trunk/app/views/issues/\\_sidebar.html.erb](source:trunk/app/views/issues/_sidebar.html.erb)

And add these line to your en.yml:

```
label_overall_issues: Overall issues
```

Just regardless in which line. But be sure there will be two spaces in front of it.

You'll find them in <source:trunk/config/locales/en.yml>

Best regards,

Daniel

**#12 - 2013-05-09 12:00 - Ivan Yiu**

- Status changed from New to Resolved

It's working. When user is in the scope of a specific project, the "Overall issues" link is available to bring the user back to "All Projects" scope.

Thanks.

**#13 - 2013-05-12 03:04 - Toshi MARUYAMA**

- Status changed from Resolved to New

- % Done changed from 0 to 30

Not yet committed, so change status to "New".

**#14 - 2013-08-09 09:54 - Daniel Felix**

Hi there,

any news on this patch?

Best regards,  
Daniel

**#15 - 2014-12-23 10:57 - Go MAEDA**

- Has duplicate Feature #11940: Add "view all projects' issues" link to issues sidebar added

**#16 - 2014-12-24 00:49 - Go MAEDA**

- Related to Defect #980: "For all projects" custom queries added

**#17 - 2016-01-04 10:47 - Go MAEDA**

- Related to Feature #5920: Unify and improve cross-project views layout added

**#18 - 2017-01-11 01:00 - Go MAEDA**

- Status changed from New to Closed

- Resolution set to Fixed

Implemented in [r16172](#) as a part of [#23310](#).

It will be available in upcoming 3.4.0.

all-projects-link.png

**#19 - 2017-01-11 01:00 - Go MAEDA**

- File *all-projects-link.png* added

**#20 - 2017-01-11 01:17 - Go MAEDA**

- Related to Feature #23310: Improved "jump to project" drop-down added
