

Redmine - Defect #14225

locale string "error_session_expired" does not work

2013-06-06 09:02 - Terence Mill

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Translations	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.1
Resolution:	Invalid		
Description			
If i login and let the session expire i get an error message label on login mask (see screener) which look like missing english translation. However i found the string in config/locales/en.yml also in my native language i have after login. Zwischenablage01.jpg
