Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Fixed		**Affected version:**	2.3.1

Description

I get an error 403 when I try to edit a custom query. How to reproduce:

1) login as admin
2) create a custom query
3) query settings: "Public" + "For all projects"
4) save query

5) login as non admin user and manager of a project
6) edit the custom query. You will get an error 403 with warning "You are not authorized to access this page."

Tested on Redmine 2.3.1.stable.11941, no plugins.

History

#1 - 2014-09-16 07:00 - tomoaki maeda

Its reproducing on 2.5.1.stable

#2 - 2014-09-16 09:46 - Michael Esemplare

Duplicate of #17669.

#3 - 2014-10-15 06:16 - Toshi MARUYAMA

- Related to Defect #17669: Non admin users can't modify public queries for all project added

#4 - 2018-02-28 22:38 - Marius BĂLTEANU

- Related to Defect #28264: Global and public custom queries are shown as editable to non administrators in projects added

#5 - 2018-04-29 07:52 - Marius BĂLTEANU

- Status changed from New to Closed

- Resolution set to Fixed

I'm considering this defect as fixed because the Edit/Delete buttons are no longer available to users without required permissions (fixed in #28264).
