

## Redmine - Defect #14571

### When updating an issue, start and end date are invalid

2013-07-30 12:48 - Rick Mason

<b>Status:</b> New	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>

<b>Target version:</b>	<b>Affected version:</b> 2.3.2
<b>Resolution:</b>	
<b>Description</b>	
<p>I have just upgraded from Redmine 2.2.0 to 2.3.2. Since upgrading, when we click Update on an issue the Start Date and End Date fields load in the following format:</p> <p>Wed Mar 28 00:00:00 +0100 2012</p> <p>When we save the issue we get "Start date is not a valid date" and "Due date is not a valid date". The workaround is to reselect both dates from the pop-up calendars so that they're populated in YYYY-MM-DD format. How can we get the dates to load in YYYY-MM-DD format in the first place?</p> <p>Our setup is Ruby 1.8.7 / Rails 3.2.13 / Redmine 2.3.2 / SQL Server 2005.</p> <p>I know SQL Server 2005 isn't supported (we're trying to find a 2008 or better server to move it to) but this was working on 2005 before the upgrade.</p>
