

## Redmine - Defect #14721

### Associated revisions - can't view

2013-08-20 11:02 - Andrzej Zawadzki

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Projects	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	2.3.2
<b>Resolution:</b>	Invalid		
<b>Description</b>			
When developer has access to subproject and doesn't have access to main project, he can't see "Associated revisions" in issues related to subproject. When rights to project are granted "Associated revision" are viewable. But I don't want give rights to main project.			

### History

#### #1 - 2013-08-20 11:19 - Etienne Massip

- Status changed from New to Closed
- Resolution set to Invalid

This is not a defect but either a feature request or a support request which should be posted in forum.

You should linked your repository to your subproject, not to the main project?

#### #2 - 2013-08-20 11:31 - Andrzej Zawadzki

I have one big repository with many subproject (directories) - much easier to maintain. Not few separate SVN repositories.  
For example: work on one issue can touch code in few repositories - in my environment few directories - much simple.  
So, maybe this is a future request but needed. ;-)
