```
def new
  @rfp = Rfp.new
  respond_to do |format|
    format.html # new.html.erb
  end
end

def create
  params[:rfp].delete(:project_id)
  @rfp = Rfp.new(params[:rfp])
  issue = Issue.new
  issue.subject = params[:rfp]
  issue.tracker = Tracker.find_by_name("Feature")
  issue.project = Project.find_by_name(params[:project])
  issue.start_date = Time.now.localtime.strftime("%Y-%m-%d")
  issue.priority = IssuePriority.find_by_name("Normal")
  issue.author = User.find_by_mail("XXX@gmail.com")
  issue.status = IssueStatus.find_by_name("New")
  issue.save
  respond_to do |format|
    if @rfp.save
      format.html { redirect_to :action => "show", :id => @rfp }
    end
  end
end
```

Here rfp is in th plugin object when i submitted the form it is successfully created but at the same time i want to create a new issue in redmine based on the value submitted in the form thats not happen any help
