Target version:	2.3.4	Affected version:											
Resolution:	Fixed												
Description													
<p>Hello,</p> <p>Sometimes Redmine stops uploading files and shows Internal Server Error when I try to attach file to issue. Application restart fixes it, but after some time problem comes again (now once a day).</p> <p>Environment:</p> <table><tr><td>Redmine version</td><td>2.3.1.stable</td></tr><tr><td>Ruby version</td><td>1.9.3 (x86_64-linux)</td></tr><tr><td>Rails version</td><td>3.2.13</td></tr><tr><td>Environment</td><td>production</td></tr><tr><td>Database adapter</td><td>PostgreSQL 9.1</td></tr></table> <p>Http server - Nginx with Passenger</p> <p>In production.log:</p> <pre>Started POST "/uploads.js?attachment_id=1&filename=ocenki.png" for <ip_address> at 2013-09-24 15:52:08 +0400 Processing by AttachmentsController#upload as JS Parameters: {"attachment_id"=>"1", "filename"=>"ocenki.png"} Current user: <user.name> (id=28) Completed 500 Internal Server Error in 41ms NoMethodError (undefined method `info' for nil:NilClass): app/models/attachment.rb:105:in `files_to_final_location' app/controllers/attachments_controller.rb:88:in `upload'</pre>				Redmine version	2.3.1.stable	Ruby version	1.9.3 (x86_64-linux)	Rails version	3.2.13	Environment	production	Database adapter	PostgreSQL 9.1

Associated revisions

Revision 12202 - 2013-10-05 13:37 - Jean-Philippe Lang

NoMethodError when uploading a file without logger (#14977).

Revision 12214 - 2013-10-13 10:28 - Jean-Philippe Lang

Merged r12202 (#14977).

History

#1 - 2013-09-25 16:21 - Yar n

i have almost the same error

but on:

Environment:

```
Redmine version      2.3.3.devel
Ruby version         1.9.3-p448 (2013-06-27) [x86_64-linux]
Rails version        3.2.13
Environment          production
Database adapter     Mysql2
```

SCM:

```
Git                  1.7.1
```

Filesystem

Redmine plugins:

```
redmine_git_hosting      0.6.2
redmine_plugin_views_revisions 0.0.1
```

production.log:

```
Started POST "/uploads.js?attachment_id=1&filename=0_1_dogovor_v8.docx" for 195.208.175.17 at 2013-09-25 14:28:19 +0400
Processing by AttachmentsController#upload as JS
Parameters: {"attachment_id"=>"1", "filename"=>"0_1_dogovor_v8.docx"}
Current user: username (id=10)
Completed 500 Internal Server Error in 78ms
```

```
NoMethodError (undefined method `info' for nil:NilClass):
app/models/attachment.rb:105:in `files_to_final_location'
app/controllers/attachments_controller.rb:88:in `upload'
```

and simple restarting of puma solves problem for some time. but later internal error comes again.

ps. ive commented out app/models/attachment.rb:105
now it is working and i believe it will help for some time.

#2 - 2013-09-26 13:35 - Valentina Kozimirova

I also have plugins

```
redmine_git_hosting      0.6.2
redmine_plugin_views_revisions 0.0.1
installed
```

#3 - 2013-10-05 13:38 - Jean-Philippe Lang

- Status changed from New to Resolved
- Assignee set to Jean-Philippe Lang
- Target version set to 2.3.4
- Resolution set to Fixed

Fixed in r12202, but this error means that you don't have any logger defined. You should check that anyway.

#4 - 2013-10-13 10:28 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged.
