<b>Description</b>			
Hello!			
I need a report that will show information how many issues are assigned to each user for all projects in the redmine. Like this <a href="http://www.redmine.org/projects/redmine/issues/report">http://www.redmine.org/projects/redmine/issues/report</a> but for all project, not for one. Can someone recommend me any plugin or something like this?
