<b>Description</b>			
The issue statistic on the homepage for the coming version 2.3.4 is not consistent. It counts 15 issues but the list has only 14. Seems like 1 open feature issue is missing. Searching the issue list does only show 1 closed feature issue for version 2.3.4.

- Status changed from New to Closed

- Resolution set to Wont fix

One issue is marked as private, and because of that, is not shown in the roadmap. This is by design...
