#### Description

In task for migrate projects from Trac v0.8.x to redmine, I get following error:

```
Migrating components.....  
Migrating milestones.rake aborted!  
undefined method `description' for #<TracMigrate::TracMilestone:0xb7026590>
```

For resolved this problem, I create a patch that fix this error.

```
class TracMilestone < ActiveRecord::Base  
  set_table_name :milestone  
  
  def due  
    if read_attribute(:due) && read_attribute(:due) > 0  
      Time.at(read_attribute(:due)).to_date  
    else  
      nil  
    end  
  end  
  
  def description  
    return read_attribute(:descr) if has_attribute?(:descr) # Only Trac v0.8.x  
    read_attribute(:description)  
  end  
end
```

It's work.

#### Associated revisions

**Revision 1597 - 2008-06-29 11:03 - Jean-Philippe Lang**

Makes importer work with Trac 0.8.x (#1540).

#### History

**#1 - 2008-06-29 11:02 - Jean-Philippe Lang**

- Category changed from Projects to Importers
- Status changed from New to Closed

Fixed in r1597. Thanks.
