Description	
<p>When issues are displayed in the Calendar (and other places, i noticed activity), it would be nice to see issue titles grayed out or crossed out like they are in the roadmap. closed issues in the roadmap are displayed crossed out, but they are not displayed that way in the calendar and activity. it would also be nice to choose the style of those issues, grayed out vs crossed out.</p>

A recent commit, r1680, does this, so it should be in release 0.8. You can change the style of closed issues by editing following line in application.css

```
a.issue.closed { text-decoration: line-through; }
```

Hmm this is really weird. I'm using 0.7.3 stable for a project and somehow the line-through rule is being ignored when I look at the Roadmap. Any ideas?

Okay fixed..

0.7.3 came with this rule:

```
a.issue.closed { text-decoration: line-through; }
```

...but it needed to be this (which I guess is present in later versions):

```
a.issue.closed, .issue.closed a { text-decoration: line-through; }
```
