<b>Resolution:</b>			
<b>Description</b>			
Then I change email address for some users in ldap directory, its dont change email in redmine account. It would be nice to be able manual or automatic LDAP account synchronization.			

### History

I totally agree !

Indeed, I think that the fields which are retrieved from LDAP shouldn't be editable inside redmine. Redmine should retrieve them each time the user logs in.

I'm not agree. I think fields might be editable but manual synchronization should be selective (by fields).

this should have been filed under "LDAP" but I can't change the category here

#### #4 - 2010-02-17 20:51 - Felix Schäfer

- Category set to LDAP
