#### Description

There is a problem with custom fields:

```
NoMethodError in Issues#show
```

Showing issues/\_form\_custom\_fields.rhtml where line #3 raised:

```
undefined method `custom_field_values' for #<Issue:0x3992bd8>
```

Extracted source (around line #3):

```
1: <div class="splitcontentleft">
2: <% i = 1 %>
3: <% split_on = @issue.custom_field_values.size / 2 %>
4: <% @issue.custom_field_values.each do |value| %>
5:   <p><%= custom_field_tag_with_label :issue, value %></p>
6: <% if i == split_on -%>
```

Trace of template inclusion: /issues/\_form.rhtml, /issues/\_edit.rhtml, /issues/show.rhtml

RAILS\_ROOT: D:/Dev/InstantRails/rails\_apps/Redmine
