Redmine - Defect #15740

Forum notification does not work on "public" projects

2013-12-19 10:27 - John Wang

Status: Start date: **Priority:** Due date: Normal Assignee: % Done: 0% **Email notifications Estimated time:** Category: 0.00 hour Target version: Resolution: Affected version: 2.3.2

Description

But it does work on other projects. i.e, when somebody create a new post or reply on one that I'm being watching on, I'll get an email. But for *public* projects(those whose **Settings->Information->Public** being checked), these things never happened.

History

#1 - 2013-12-19 10:32 - John Wang

I can see the following message in the product log though:

...

Current user: xxx ..

Rendered mailer/message_posted.text.erb within layouts/mailer (0.2ms)

Rendered mailer/message_posted.html.erb within layouts/mailer (3.7ms)
...
