Redmine - Feature #1575

Toolbar button to insert a table

2008-07-04 00:21 - Konrad Kosmowski

Description

When you open the formatting help popup it lacks info about tables. AFAIK with textile markup it is possible to create tables using markup like that:

```
|cell|cell|cell|
|another cell|merged cell||
```

Output:

cell	cell	cell
another cell	another cell	another cell

So as you see it is possible to create tables - too bad that help does not mention it - I needed to look after textile documentation to get that info. For me it is no problem but I manage Redmine for less technical people and they probably dont even look at help but strictly at the toolbar - when there is no table icon it means there is no tables. ;)

Revision 19561 - 2020-03-04 15:02 - Go MAEDA

Toolbar button to insert a table (#1575).

Patch by Mizuki ISHIKAWA and Hiroyuki ENDO.

History

#1 - 2008-07-04 10:02 - Paul Rivier

I agree, but what would a "table" button insert ? Two '|' ? We would probably need something a bit more evolved for such a button, such as a pop-up window asking for

- number of rows
- number of columns
- use headers ? (checkbox)

Once the template syntax is inserted, it probably becomes more natural to fill the cells and tweak it by hand.

> I agree, but what would a "table" button insert ?

It could work like in MS Word or OpenOffice.

- Subject changed from Markup help and toolbars lacks tables to Toolbar button to insert a table

- Category changed from Wiki to Text formatting

- Priority changed from Low to Normal

Since markup help already has information about tables ([#12734](#)), I am changing the subject of this issue.
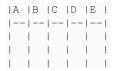

#6 - 2020-02-19 06:31 - Mizuki ISHIKAWA

- File feature-1575.patch added

- File use-table-generator.gif added

The attached patch adds a button to insert a table into the wiki toolbar.
The button create a table with rows / columns according to the selected range.

　　use-table-generator.gif
Markdown:

```
|A  |B  |C  |D  |E  |
|-- |-- |-- |-- |-- |
|   |   |   |   |   |
|   |   |   |   |   |
|   |   |   |   |   |
```

Textile:

```
|_.A|_.B|_.C|_.D|_.E|
|   |   |   |   |   |
|   |   |   |   |   |
|   |   |   |   |   |
```

Currently no icon image is set for the button. It is necessary to create a new appropriate icon image.

Thank you for making the icon.
The icon looks very nice!

Screenshot when [image.png](#) is applied:

use-table-icon.png

Updated the patch to use [image.png](#) as table button icon.

#10 - 2020-02-21 08:17 - Mizuki ISHIKAWA

Unfortunately the grid lines of the selection UI are not properly displayed in Firefox.

Chrome:
    Screen Shot 2020-02-26 at 9.32.36 AM.png

Firefox:
    Screen Shot 2020-02-26 at 9.27.58 AM.png

This seems to be a long running bug of Firefox though: https://bugzilla.mozilla.org/show_bug.cgi?id=688556

There seem to be workarounds, like using

```
background-clip: padding-box;
```

on the cells... But then it looks a little bit strange on Chrome on the other hand

Thanks for sharing the information!!
Operation verification on browsers other than Chrome was insufficient.
Since a problem was found not only in Firefox but also in IE11, a patch that solves the problem is attached.

0002-Firefox-support.patch resolves Firefox by removing `**td { position: relative; }**`.
0003-IE11-support.patch avoids using repeat function that did not work in IE11.

#13 - 2020-02-29 05:53 - Go MAEDA

- Target version changed from Candidate for next major release to 4.2.0

Setting the target version to 4.2.0.

#14 - 2020-03-02 08:17 - Jan from Planio www.plan.io

I really like this patch. Great work!

For the icon, I think famfamfam should be used to stay consistent with the style of other icons in Redmine.

#15 - 2020-03-03 10:55 - Go MAEDA

Thank you for the feedback. I think the suggested table icon is better than famfamfam's table icon because famfamfam's table icon looks like a document.

The suggested icon:

famfamfam's table icon:

Description	Edit	Preview	B	I	U	S	C	H1	H2	H3	≣	≣	≣	≣	▦	pre	<>	🖼	▬	⑦

#16 - 2020-03-04 02:18 - Mizuki ISHIKAWA

I also prefer image.png.
The famfamfam's icon does not look like a table because each cell is too small to identify.

#17 - 2020-03-04 15:01 - Go MAEDA

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Resolution set to Fixed

Committed the patch. Thank you for improving Redmine.
