

Redmine - Defect #15920

Migrating from trac, parsing of codeblocks is too general

2014-01-21 16:26 - Bernhard Wenzel

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Importers	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution:	
Description	
<p>The regular expression for start and end of codeblocks is too general. If you have a codeblock, starting and ending in the same line, the code only sees the beginning and not the ending of the codeblock.</p> <p>I think the patch will solve the problem.</p>
