Target version:	
Resolution:	
Description	
For example, this code	
<pre><classdiagram> [Customer]+1->*[Order] [Order]++1-items >*[LineItem] [Order]-0..1>[PaymentMethod] </classdiagram></pre>	
includes this image into a wiki-page:	
http://yuml.me/898c6747	

History

... could also implement plantUML as well as dot... but IMHO this should be done in a plugin.

#2 - 2014-06-04 18:44 - Yukinari TOYOTA

FYI, I use https://github.com/luckval/wiki_external_filter plugin as a launcher of plantUML on redmine 2.3 so I can embed UML in wiki. However, it's a little slow macro due to execution of java-based plantuml command everytime...
