

Redmine - Feature #1738

Add a "Visible" flag to project/user custom fields

2008-08-03 23:14 - Mischa The Evil

Target version:	1.1.0		
Resolution:	Fixed		

Description

This is taken from this [forum-thread](#). The forum-thread never became a "official feature request". So hereby...

This request is related to some plugins (like redmine_tab and google_calendar) which uses custom fields on project level to get input for their extension (like tabname and iframe-code). This info shouldn't be displayed on the project's overview page. Therefore it would be great to add a flag to the project custom fields which provides an option to hide the project custom-field in the project's overview page.

There is a way to workaround it like Eric Davis states in the forum-thread though this needs refactoring of those affected plugins.

Revision 4382 - 2010-11-07 15:15 - Jean-Philippe Lang

Adds a "visible" option on User and Project custom fields (#1738).

If set to false, the custom field won't be display on user profile/project overview.

I can't get this patch to work, and I'd really like to get this working.
Can anyone help, please?

Thanks,
Rafi

Rafi, I've just updated patch [#1746](#) against the trunk at [r2641](#)... Plz check if it solves your issues with the patch...

#4 - 2010-11-07 15:12 - Jean-Philippe Lang

- Subject changed from Add a "Hide on overview tab" flag to project custom fields to Add a "Visible" flag to project/user custom fields
- Status changed from New to Closed
- Target version set to 1.1.0
- Resolution set to Fixed

Feature added in [r4382](#) for user and project custom fields.
The flag is named "visible" and is set to true by default.
