

Redmine - Defect #17517

Attempting to Add a Related Issue Multiple Times Sequentially Causes 500

2014-07-21 18:59 - Zach Auclair

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	UI	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	4.0.0	<b>Affected version:</b>	2.5.1
<b>Resolution:</b>	Fixed		
<b>Description</b>  When pressing "Add" after typing a related issue, the form ajax submits but does not prevent further ajax submits while the request is being processed.  As a result of this, clicking "add" multiple times quickly will cause sequential requests to link an issue (after the first) to fail; along with this, the results of the last post are displayed (meaning the first successful add of a related issue may be hidden).  <b>proposed patch:</b>  <pre>diff --git a/app/views/issue_relations/_form.html.erb b/app/views/issue_relations/_form.html.erb index 29b7f0f..ff80e47 100644 --- a/app/views/issue_relations/_form.html.erb +++ b/app/views/issue_relations/_form.html.erb @@ -5,7 +5,7 @@ &lt;span id="predecessor_fields" style="display:none;"&gt;   &lt;%= l(:field_delay) %&gt;: &lt;%= f.text_field :delay, :size =&gt; 3 %&gt; &lt;%= l(:label_day_plural) %&gt; &lt;/span&gt; -&lt;%= submit_tag l(:button_add) %&gt; +&lt;%= submit_tag l(:button_add), :disable_with =&gt; l(:button_add) %&gt; &lt;%= link_to_function l(:button_cancel), '\$("#new-relation-form").hide();' %&gt; &lt;/p&gt;</pre>

History

#1 - 2014-08-19 05:37 - Toshi MARUYAMA

- Target version set to 2.5.3

#2 - 2014-08-19 05:43 - Toshi MARUYAMA

- Target version changed from 2.5.3 to 2.6.0

#3 - 2014-08-19 05:44 - Toshi MARUYAMA

<https://github.com/plataformatec/devise/issues/2343#issuecomment-15334387>

DEPRECATION WARNING: :disable\_with option is deprecated and will be removed from Rails 4.1. Use 'data: { disable\_with: 'Text' }' instead.

#4 - 2014-09-14 12:52 - Jean-Philippe Lang

- Status changed from New to Needs feedback
- Assignee set to Jean-Philippe Lang

The proposed fix has a side effect with Firefox (tested with 24 ESR):

1. go to an issue, add a relation
2. hit F5
3. click on the 'Add' link to add another relation => the 'Add' button is disabled

Problem doesn't occur if step 2 is omitted.

BTW, I don't get 500 errors when hitting the button multiple times. I only get a proper validation error message. Can you post your 500 error stack trace ?

**#5 - 2014-10-18 12:17 - Jean-Philippe Lang**

- Target version changed from 2.6.0 to Candidate for next minor release

**#6 - 2018-03-22 23:40 - Marius BĂLTEANU**

It seems that the data-disable-with attribute is enabled by default in Rails 5. There are some examples [here](#).

Also, I tested this issue on the current trunk and works as expected in the major browsers (Safari, Chrome and Firefox) on OS X. I propose to mark this ticket as fixed by [#23630](#).

**#7 - 2018-03-22 23:40 - Marius BĂLTEANU**

- Related to Feature #23630: Migrate to Rails 5.2 added

**#8 - 2018-05-15 00:00 - Marius BĂLTEANU**

- Assignee deleted (Jean-Philippe Lang)

- Target version changed from Candidate for next minor release to 4.0.0

Considering that the issue seems to be fixed in version [4.0.0](#) by the migration to Rails 5.1, I would like a second opinion before closing it.

**#9 - 2018-06-16 12:48 - Jean-Philippe Lang**

- Status changed from Needs feedback to Closed

- Resolution set to Fixed

Works for me
