Redmine - Defect #17555

Mandatory condition for 'Category' & 'Assignee' is not working according to workflow defined

2014-07-25 08:05 - Lajish Lakshmanan

Status:	New		**Start date:**	
Priority:	High		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Administration		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	2.5.2

Description

Hi folks,
I encountered a loop hole in workflow where a member having tester role is having **Required** condition for **Category** & **Assignee** against an issues status **New**.
But tester can create a **New** issue without providing **Category** & **Assignee**.

I don't know whether this issue has been reported earlier or not. But I request humbly to incorporate this defect's remedy to very next version of Redmine.

There is little change in scenario for same. Suppose tester role member is Administrator then these mandatory condition in workflow doesn't works.

Yea, I'm having troubles with making assegnee field mandatory. And another user reported exactly the same problem here:
