

Redmine - Feature #17801

When adding watchers to an issue, you should have the possibility to notify the watchers that they have been added to the issue

Description	
<p>Sometimes it happens that I want to take 2 actions on an existing issue: Add a watcher + add a note to the issue (or change some other issue-property)</p> <p>I would like the new watcher to get notified for the changes I make on the issue.</p> <p>Now, if I forgot to add the watcher, before I make the issue change, then (of course) the watcher does not get a mail.</p> <p>It would be nice if, when adding watchers, you could decide to send them the issue-information by mail. (so that they know that they are now involved in this issue)</p>
