

Redmine - Feature #18093

Please add the permission "can see project members" to the roles, or better an "hidden member" attribute for roles or memberships

2014-10-14 14:52 - Stefano Gargiulo

Description			
<p>I use redmine also for customer support on a software product I developed and I'm selling, so I created the role "Customer" and allowed it only to open tickets on a project, anyway It's not nice that in that way all the customers can see the other customers name in frontpage.</p> <p>Anyway the can se the Developer name, so better than this is to have a flag to hide some members to be listed in the homepage of the project, this can be in the project membership status or better per-role (e.g. always not show "customers" or say "bug reporter" members in the project homepage)</p>
